Dodd & Fowler Roads: High Risk for Vehicle Accidents

Be Careful!

What Happened?

- The intersection of Dodd and Fowler Roads, just southeast of Building 4650, has been the site of several recent vehicle accidents.
- Although a caution light has been installed at the intersection, vehicle collisions continue to occur.
- Some of these accidents resulted in injury to the vehicle occupants.

What Can Be Done?

- The cause of one recent accident was the driver's mistaken belief that the intersection requires a 4-way stop. It is actually a 2-way stop, with Dodd Road motorists having the right of way.
- Know that the intersection of Dodd and Fowler Roads is a location where vehicle drivers often make **costly** mistakes. Use extra caution at this intersection!
- Drive defensively, and be prepared for other drivers to do the unexpected!
