Thursday is National Space Day; goal to inspire next generation

Thursday is National Space Day, an event begun in 1997 to promote math, science, technology and engineering careers among students. "A goal of Space Day is to inspire the next generation of inventors, aviators and explorers," said Marshall Center Director David King. Events celebrating the day are held in all 50 states. In Alabama, NASA Administrator Sean O'Keefe will address state legislators and citizens in the Old House Chamber of the State Capitol in Montgomery at 3:30 p.m. CDT.

2 p.m. Friday**

Blood pressure screenings emphasized during May

May is High Blood Pressure Month and the Marshall Center is participating by offering blood pressure screenings for employees any work day from noon-3 p.m. at the Bldg. 4249 Medical Center. HEMSI paramedics assigned to the Marshall Center also will stop by various buildings to offer screenings during the month. For more information, see "Inside Marshall."
