NASA safety panel issues first quarterly report

The first quarterly report has been issued from the reconstituted NASA Aerospace Safety Advisory Panel. NASA Administrator Sean O'Keefe rechartered the panel in November to provide independent long-term oversight of safety issues regarding operations, missions and other Agency initiatives. The charter was revised to be consistent with the intent of the panel's original 1967 charter -- focusing on safety and quality systems, industrial and systems safety, risk management and trend analysis.
