## **TABES Planned for May 12-13 at the Von Braun Center**

The 14th annual Technical and Business Exhibition/Symposium (TABES) will be held May 12-13 at the Von Braun Center. The conference, to center around the theme "Advancing on the Future," will include speaker John Horack, of Marshall's Space Sciences Laboratory. Jeff Ding, of Marshall's Materials and Processes Laboratory, will also discuss friction stir welding development.
