## Data communications outage scheduled for Saturday

An upgrade to the Marshall data communications infrastructure will result in communications outages from 8 a.m.-5 p.m. Saturday. Internet users should experience a 10-minute interruption between 8 and 9 a.m., another 10-minute interruption prior to the upgrade completion, and interruptions during the day. For more information, call 4-HELP, option 0, activity number 6772.

See Inside Marshall for first Chandra images. See a possible neutron star or black hole near a gigantic stellar explosion

Congratulations Marshall Center for being awarded continued ISO Registration following this week's successful National Quality Assurance audit

## Power outage scheduled for Bldg. 4732 this weekend

A total power outage is scheduled for Building 4732 from 7:30 a.m. Saturday to 4 p.m. Sunday. Data and phone services will not be affected. For information, call 4-HELP, option 0, activity number 6824.
