## Marshall welcomes French Space Agency Wednesday

Representatives of the French Space Agency are visiting Marshall Wednesday. Following a Center overview, the group will learn about advanced space transportation, the Fastrac engine, anti-matter trap and the simulated atomic fission engine. They will tour the Payload Operations Integration Center, Microgravity Development Laboratory, International Space Station Engineering mockup, the Space Station Manufacturing and Assembly facility and the U.S. Space & Rocket Center.

**Chandra Program Office retirement reception 2:30-4:30 p.m. Thurs., Bldg. 4200, room 509**

**No taxi service Wednesday at Marshall due to holiday reception, other events**
