Composite materials course for engineers Monday, Tuesday

A course on the theory and application of composite materials will air from 10 a.m.-4 p.m. Monday and Tuesday on Marshall's Continual Learning Channel 14. This course is aimed at employees with a technical background, but with no experience with composite materials. To register, e-mail your first and last names to: edtec@msfc.nasa.gov

POC grand opening replay 10 a.m., 2 p.m., Wednesday, Centerwide TV

'Lunch and learn' on investments, 11 a.m.-noon Thursday, Bldg. 4203 cafeteria

Metalcasting workshop set April 5-6 at Bevill Center

A rapid prototyping and tooling for metalcasting workshop will be held April 5-6 at the Bevill Center on Sparkman Drive in Huntsville. The two-day workshop features six different rapid prototyping and tooling techniques as casting prototypes are built. For registration information, call Vickie Doby at (843) 760-3219 or visit the Web at: http://amc.aticorp.org/RP_Workshop/overview.html

Fireside chat videos available

Videotapes are available for a series of fireside chats on Huntsville's space exploration history held last year at the University of Alabama in Huntsville. Copies of the five-hour VHS tape are \$19.95, plus \$2 for postage and shipping. To order, send e-mail to: buckbee@air-space.com
