Marshall scientist considered for astronaut candidate

Dr. Dale Watring, a scientist in Marshall's Microgravity Science and Applications Department, is one of 120 prospective astronauts being interviewed at Johnson Space Center in Houston next week. The final selections for the class of 2000 will be announced early this year, and the astronaut candidates will report for duty in the summer.

Marshall Center welcomes Science Communicators

Blood drive 8 a.m.-1:30 p.m. Friday at Marshall Activities Bldg. 4752

Work set for weekend affects Bldgs. 4200, 4201, 4202

There will be a heating outage in Bldg. 4200 from 7-11:30 a.m. Saturday, and an activity that will affect air conditioning for Bldg. 4201 from 7 a.m. Saturday to 7 p.m. Sunday. Telephone services in Bldgs. 4200, 4201 and 4202 will not be available from 7 a.m. Saturday to 7 p.m. Sunday. Telephone service will be available for Bldg. 4203. For more information, call 544-HELP, Option O.

Defensive driving class begins Jan. 31 at Marshall

The first of a series of four defensive driving classes will be from 12:30-4:30 p.m. Jan. 31. The class is designed to teach drivers how to avoid collisions and reduce traffic violations. Civil service employees should register via AdminSTAR.
