## Teledyne Brown Receives NASA Contract Worth \$28.9 Million

Teledyne Brown Engineering of Huntsville has been awarded a contract by Marshall to provide propellants, pressurants and calibration services in support of operations at the Center, for a period of up to five years. If all options are exercised, the contract could be worth approximately \$28.9 million.

## Bone Marrow Donor Drive Set For June 24 at Redstone Arsenal

Teresa Smith, a contract specialist in Marshall's Procurement Office, is in urgent need of a bone marrow transplant. A bone marrow drive to register donors will be held 9 a.m. - noon on June 24 in Bldg. 5304, Room 4231. Participants will have two small vials of blood drawn to be typed and registered with the National Marrow Donor Program. For more information or to schedule an appointment, **contact:** Jean Weisser, 842-0400.

## New Process for Distributing Administrator Messages

Changes have been made in the process to distribute centerwide electronic messages. Now, a single "Administrator" message will be sent daily listing the titles of individual messages for that day. The content of messages will be posted on the "Inside Marshall" website and may be accessed by clicking on the title of the message listed in the "Administrator" message. For more information see "Administrator Messages" on the "Inside Marshall" website at "<http://www/inside>".
