NASA fact sheet on aerospace cancer research available online

In observance of October as Breast Cancer Awareness Month, NASA will release information on new ways aerospace research and technology is helping in the understanding, detection and treatment of all types of cancer. A NASA fact sheet available on the Internet highlights diagnostic technology currently available. It also features NASA research and technology that may improve cancer diagnosis, surgical procedures and drug therapies in the future. The website address is: <http://www.nasa.gov/women/welcome.html>

October is Breast Cancer Awareness Month

Toastmasters Mtg. 11:30 a.m. Tues., Bldg. 4610, Cafeteria Conference Rm.

Chemical Inventory training set for Tues. in Morris Auditorium

Chemical Inventory training is set from 9-11 a.m. Tuesday in Bldg. 4200, Morris Auditorium. Registration will begin at 8:30 a.m. The training is for employees at Marshall who will be preparing the chemical inventory and serving as points-of-contact. **Contact:** David Glover, 4-4968
