CCR #	Initiator	Installation	Initiation Date	Status	Status Date	Priority	Type	Size	Expected Release	Expected Release Date
Title	Description						Recommended Action			
421	Heipel, Judy	LaRC	10/14/2004	Approved	10/18/2004	Low	DR	Small		
NEMS Web passwords from tables 078 & 090			When changing information on table 078 (Custodian Account Table) the password field is being carried over to the next Custodian Accounts that are being changed. The same will also happen for table 090 (User Table).				Add a move so that the passwords will be reset instead of carried over from 1 record to another.			
420	Drummond, Susan	KSC	9/21/2004	New	9/22/2004	Medium	RC	Medium		
NEMS Central Web Page			Currently government controlled equipment is being moved to different NASA Centers, sometimes by-passing property. This system will assist all of us in locating and contacting the Custodian and Center when a piece of equipment is found, there by decreasing the chance of losses.				Create a NEMS CENTRAL WEB with read and search capabilities of active and history files to include all NASA Centers data. System should not require a password, giving all government employees the ability to research all NASA Centers controlled equipment by tag, model number and/or serial number. System would display page 1 or at least the following information: ECN, ITEM NAME, MODEL NUMBER, SERIAL NUMBER, FIRST AND LAST TRANSACTION, and CUSTODIAN NAME.

413	Zurkin, Nik	MSFC	6/30/2004	Scheduled	7/14/2004	Medium	RC	Small	6.5	12/3/2004
Transaction 15 does not remove transfer file records.		When a transactions 15 is processed to return an item that was deleted with a transfer transaction it does not remove the transfer file information that was created.					Have the 15 transaction (all versions) remove transfer file information when a transfer is reversed.			
412	Zurkin, Nik	MSFC	6/18/2004	Scheduled	7/14/2004	Low	RC	Small	6.5	12/3/2004
Problem with transaction C60.		An installation conveyor edit (error 566) in PCM transaction. C60 does not match NEMS transaction 60.					Correct the C60 transaction.
